Version 2.2.2 22 December 2014

Common Metadata Ratings Specification Version 2.2.2

Notice:

As of the date of publication, this document is a release candidate specification subject to DECE Member review and final adoption by vote of the Management Committee of DECE in accordance with the DECE LLC Operating Agreement. Unless there is notice to the contrary, this specification will become an adopted "Ecosystem Specification" on 5 February 2015.

THIS DOCUMENT IS PROVIDED "AS IS" WITH NO WARRANTIES WHATSOEVER, INCLUDING ANY WARRANTY OF MERCHANTABILITY, NONINFRINGEMENT, FITNESS FOR ANY PARTICULAR PURPOSE, OR ANY WARRANTY OTHERWISE ARISING OUT OF ANY PROPOSAL, SPECIFICATION OR SAMPLE. Digital Entertainment Content Ecosystem (DECE) LLC ("DECE") and its members disclaim all liability, including liability for infringement of any proprietary rights, relating to use of information in this specification. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted herein.

This document is subject to change under applicable license provisions, if any.

Copyright © 2009-2014 by DECE. Third-party brands and names are the property of their respective owners.

Optional Implementation Agreement:

In addition to the UltraViolet License Agreements which cover implementation of the DECE Ecosystem Specifications within the UltraViolet Ecosystem, DECE offers an optional license agreement relating to the implementation of this document outside the Ecosystem ("RAND Agreement"). Entities executing the optional RAND Agreement receive the benefit of the commitments made by DECE's members to license on reasonable and nondiscriminatory terms their patent claims necessary to the implementation of this document in exchange for a comparable patent licensing commitment. Copies of the license agreements are available at the DECE web site referenced below.

INTRODUCTION

This document contains enumeration values and usage constraints for the inclusion of Content Ratings in metadata.

This document contains information useful when used in conjunction with MovieLabs Common Metadata (TR-META-CM) and derived specifications such as DEG/EMA Metadata and UltraViolet Content Metadata.

DISCLAIMER: Although care has been taken to ensure the accuracy, completeness and reliability of the information provided, we are not responsible if information that we make available on this site is not accurate, complete or current. Region	Type	Environ	System	Ratings	Reasons	Notes & References
				16+ 18+ RC		Notes: Canadian French-language broadcasters use the classification system of the Regie du cinema du Quebec (RCU), but they added one additional category (8+). Broadcaster must still evaluate the programs themselves and cannot necessarily use the RCU classification of a particular film or program. Even if a Canadian channel is airing a foreign-produced program, it must put a Canadian rating on it.
