Geographies Specification

Version 2.3   26 October 2015

Geographies Specification Version 2.3

Geographies Specification Version 2.3

Contents

Geographies Specification Version 2.3

1   Introduction

1.1 Scope

This document specifies mandatory and optional policies for implementation of DECE Account and User management features within specific geographical territories. It will be updated as additional Licensed Territories are added.

1.2 Document Organization

Section 1   Introduction, scope, organization, notations and conventions, references, and glossary of terms specific to this document. (See [DSystem] for general definitions.)

Section 2   Presents an overview of Geography Policies. Defines the default policies and how to implement them.

Appendices   An appendix is provided for each geographical territory for which DECE has defined policies.

1.3 Document Notation and Conventions

Certain parameters with values that vary between geographies are denoted in all caps beginning with DGEO_ and are defined in each appendix.

The following terms are used to specify conformance elements of this specification. These are adopted from the ISO/IEC Directives, Part 2, Annex H [ISO-P2H].

SHALL and SHALL NOT indicate requirements strictly to be followed in order to conform to the document and from which no deviation is permitted.

SHOULD and SHOULD NOT indicate that among several possibilities one is recommended as particularly suitable, without mentioning or excluding others, or that a certain course of action is preferred but not necessarily required, or that (in the negative form) a certain possibility or course of action is deprecated but not prohibited.

MAY and NEED NOT indicate a course of action permissible within the limits of the document.

Terms defined to have a specific meaning within this specification will be capitalized, e.g. "Track", and should be interpreted with their general meaning if not capitalized. Normative key words are written in all caps, e.g. "SHALL".

1.4 Normative References

1.4.1 DECE References

This document normatively references the following DECE technical specifications:

[DSystem]	System Specification
[DMeta]	Content Metadata Specification
[DCMetaCR]	DECE Common Metadata Ratings Specification
[DCoord]	Coordinator API Specification
[DSecMech]	Message Security Mechanisms Specification

1.4.2 Normative References

This document normatively references the following external publications:

[ISO3166-1]	Codes for the representation of names of countries and their subdivisions – Part 1: Country codes, 2007
[RFC2616]	Hypertext Transfer Protocol —HTTP/1.1
[ASCII]	ISO/IEC 8859-1:1998, "Information technology – 8-bit single-byte coded graphic character sets – Part 1. Latin alphabet No. 1"
[ISO-P2H]	ISO/IEC Directives, Part 2, Annex H http://www.iso.org

1.5 Definitions

(none)

2   Overview and Default Policies

2.1   Overview

This Geographies Specification facilitates compliance with legal requirements, practices, and customs within different regions. Among other provisions, this specification contains mandatory requirements, primarily for the Retailer, LASP, and Access Portal Roles with respect to the provision of Account and User creation and management services.

This specification also describes certain best practices and other information to enable the Coordinator, DECE, and its Licensees to provide service within particular regions. Considerations for local customs and cultures may also be included to ensure a satisfactory user experience in a particular region.

Please note that it is the responsibility of each licensee to comply with all applicable laws. The requirements in this specification do not limit that responsibility, and compliance with these requirements does not guarantee compliance with applicable laws.

Some information in this document applies only to the Coordinator or the Web Portal Role, as indicated.

2.2 Authorized Territories

A Node providing Account creation services SHALL set the Country property of the Account to a Country Name from Table 1.

Note: Currently the Coordinator automatically sets the Country of each User to the Country of the User's Account. In the future it may be possible to have Users with different Country properties in a single Account.

The Country Name MAY be obtained from the User, in which case the list of Country Names presented to the User for selection SHALL contain only entries from Table 1, but is not required to contain all entries in Table 1.

The Node MAY set the Country property based on the IP address of the User or the territory of operation of the Licensee.

Country	Country Code (ISO 3166-1)	Applicable Appendix
Australia	AU	Appendix E
Austria	AT	Appendix I

Country	Country Code (ISO 3166-1)	Applicable Appendix
Canada	CA	Appendix C
France	FR	Appendix G
Germany	DE	Appendix H
Ireland	IE	Appendix D
New Zealand	NZ	Appendix F
Switzerland	CH	Appendix J
United Kingdom	GB	Appendix B
United States	US	Appendix A

Table 1: Authorized Countries

2.2.1 Change of Territory

A Node SHALL NOT change the Country property of an Account or a User.

A future revision to this document may prescribe conditions and policies governing (i) the change of a User's or an Account's country (and thus, the restrictions and requirements resulting from such a change), and (ii) situations where different Users of the same Account select different Country properties.

2.3 Determination of Jurisdiction

The applicability of the appropriate default policies and territory-specific policies from the appropriate appendix SHALL be determined from the Country property of each User in an Account.

The Country property for each User of an Account SHALL be the same as the Country property selected by the first User of the Account, who created the Account. This Country property SHALL be propagated to each newly created User of such Account. Newly created Users of Accounts SHALL NOT be able to select a different Country property than that which was selected by the first User of such Account.

A Node SHOULD NOT use the Country property of a User or Account to restrict transactions (acquisitions of Rights Tokens) or fulfillment (streaming, download, DRM licensing, etc.)

2.4 Mandatory Geography Policy Information

This specification defines the following information for each territory:

- DGEO_API_DNSNAME: the base DNS name upon which the geography's Coordinator API base location is calculated. This may be identical for multiple geographies. See [DCoord] section 3.12 for its use.

- DGEO_PORTALBASE: the fully qualified domain name for the primary Web Portal operated by DECE. This may be identical for multiple geographies. It is required for the proper consent request endpoints defined in [DCoord] section 5.5.3.1.

- DGEO_TEXTBASE: the domain name for the well-known URL that directs or redirects to consent text for the region, including policy documents for UltraViolet Terms of Use, UltraViolet Privacy Policy, and UltraViolet Children's Privacy Policy. See [DCoord] 5.5.3.

- DGEO_PORTAL_LANGUAGES: a listing of mandatory language or languages required for operation of a Web Portal in the region, which should be expressed in the form provided by [RFC2616].

- DGEO_USER_LANGUAGES: recommended language setting for a User. Nodes (including the Web Portal) SHOULD set the Languages element of UserData accordingly.

- DGEO_TOU_ACCEPTANCE_GRACE_PERIOD: The maximum time, beginning at User creation, during which a User may be active without accepting the Terms of Use. If 0, Terms of Use SHALL be accepted before the User may become active.

- DGEO_TOU_UPDATE_GRACE_PERIOD: The maximum time a User may continue to be active without accepting the applicable Terms of Use after they are updated. The default value for this grace period is 0, but it may be increased for a given update.

- Policy document URLs: DGEO_TOU, DGEO_PP, and DGEO_CP, referencing the UltraViolet Terms of Use, UltraViolet Privacy Policy, and UltraViolet Cookie Policy, respectively. These documents are provided in both HTML and text format, to be used by Nodes that link to the documents or present them integrated in the Node's own UI.

2.5 Additional Geography Policy Information

This specification may provide the following additional information for a territory:

- Any necessary adjustments to Policies described in [DCoord] Section 5.

- The ability for DECE Licensees or other third parties to collect consent on behalf of DECE (for example, can Nodes collect consent directly, or are they required to direct the User to the Web Portal in order to obtain certain consents).

- Identification of which consents, if any, must not be "pre-accepted" (checkbox not pre-checked) within a user interface when obtaining consent from a User.

- The ability of a User to provide consent or acceptance to any of the defined policies on behalf of another User in the Account.

- Any additional mandatory or optional policies not defined in [DCoord] Section 5.

- Any necessary adjustments to the confidentiality recommendations provided in [DSecMech].

- Aspects of the specifications that must not be employed, including Policies, APIs, or other functionality of the Coordinator.

2.6 Default Policies and Requirements

The following policies apply generally but may be altered by territory-specific requirements. Before implementing anything from this section, refer to the appropriate appendix below for requirements that may alter or supersede this section.

2.6.1 Terms of Use/Privacy Policy Acceptance and Updates

Terms of Use (TOU), Privacy Policy (PP), and Cookie Policy (CP) are separate documents, but the Privacy Policy (including any age-specific or region-specific additional privacy policy), Cookie Policy, and any other related policies are included by reference in the TOU. User acceptance of Terms of Use, Privacy Policy, and other related policies is collected as a single consent. Reference to TOU acceptance in this and other specifications indicates acceptance of all related policies.

2.6.1.1 Initial TOU Acceptance

Initial Terms of Use and related policy acceptance SHALL only be collected at a Web Portal or at a Node providing User creation.

2.6.1.2 Updated TOU Acceptance

The Terms of Use and related policies may be updated from time to time. Updates may require users to re-accept, whereas other updates may not require users to re-accept. DECE indicates when re-acceptance is required for a particular update.

The TOU policy document is dated (see DCoord 5.5.3.2). If an update to the policy documents does not require user re-acceptance, a new dated resource may be provided. If an update requires user re-

acceptance, a new dated resource will be provided. A Node can determine if a user has accepted the most recent policy documents by comparing the TermsOfUse consent policy date with the policy document resource date.

When re-acceptance is required, a grace period may be provided. One the grace period elapses, users who have not accepted the new TOU SHALL be placed into TOU blocked status by the Coordinator.

Acceptance of an *updated* Terms of Use, including related policies, SHOULD be collected by a Node when the Node determines that the User has not accepted the current TOU, based on any of the following:

- The User status is TOU blocked (`urn:dece:type:status:blocked:tou`). The Node will receive an error response of "LatestTOUNotAccepted" from the Coordinator when attempting to use most APIs (see [DCoord] Appendix H).

- The most recent TermsOfUse resource (`urn:dece:type:policy:TermsOfUse`) for the User does not match the resolved URL of the current TOU endpoint (DGEO_TOU). The Node SHOULD compare both the html form (…/html/Current) and the text form (…/text/Current) of DGEO_TOU to the Resource element of the TermsOfUse policy class for the User to check that neither match. If the date of the updated TOU does not match the date of the User's TermsOfUse policy resource,
  a) if the updated TOU requires re-acceptance, the Node SHOULD collect updated consent, or
  b) if the updated TOU does not require re-acceptance, the Node MAY collect updated consent.

If a Node chooses not to directly provide TOU re-acceptance for users, it SHALL provide an appropriate message indicating that the updated Terms of Use must be accepted before the user can continue using UltraViolet, and it SHALL provide a link to DGEO_PORTALBASE. (If a hyperlink is not possible, the URL text may alternatively be presented.).

2.6.1.3   Mechanisms for TOU Acceptance

A Node MAY use the Coordinator-provided endpoints, as detailed in [DCoord] 5.5.3.1 and [DSecMech] 7.1.4, to direct the User to a Web Portal for TOU acceptance, or the Node MAY directly collect TOU acceptance as detailed in 2.6.1.4.

2.6.1.4   TOU Acceptance at a Node

A Role providing direct TOU acceptance at a Node is subject to the following requirements.

Geographies Specification Version 2.3

The Node SHALL request that the User read and agree to the UltraViolet Terms of Use and Privacy Policy. (Note that although the Privacy Policy is included by reference in the Terms of Use, the Node SHALL explicitly request acceptance for both.)

The Node SHALL present the User with a clear "mechanism of acceptance" (i.e., an industry standard method, such as a check-box or "Accept" button) to indicate the User's agreement to the UltraViolet TOU/Privacy Policy.

The Node SHALL provide a clear and conspicuously-placed notice to the User that using the "mechanism of acceptance" constitutes the User's agreement to the UltraViolet Terms of Use and Privacy Policy. For example, a checkbox labeled "I have read and agree to the UltraViolet Terms of Use and Privacy Policy" or a notice above a button stating "By selecting [button name] I acknowledge that I have read and agree to the UltraViolet Terms of Use and Privacy Policy."

The text "Ultraviolet Terms of Use" SHALL be a hyperlink to DGEO_TOU. The text "Privacy Policy" SHALL be a hyperlink to DGEO_PP. In environments where hyperlinks are not possible, the Node SHALL retrieve the full text of the UltraViolet TOU and the full text of the UltraViolet Privacy Policy from DGEO_TOU and DGEO_PP and present the text to the User.

The TOU and Privacy Policy presented to the User SHALL match the intended country setting of the prospective User (and Account, for the initial User of an Account). If a Node provides a feature for the User to select a country, the Node SHALL ensure that the correct TOU and Privacy Policy are presented based on the User's selection.

The Role SHALL clearly distinguish the UltraViolet TOU/Privacy Policy from its own terms of use, terms of service, and privacy policy so as not to confuse or mislead Users as to the origin of the UltraViolet TOU/Privacy Policy.

Upon receiving agreement to the UltraViolet TOU/Privacy Policy from the User, the Node SHALL immediately notify the Coordinator of this agreement by creating or updating the TermsOfUse policy for the User (see [DCoord] 5.6). Also see section 2.4 for the geography-specific Policy Class URN to use when setting the TermsOfUse policy.

The Role SHALL NOT engage in or permit any transactions or other Ecosystem activity by the User until it receives a response from the Coordinator affirming that the TermsOfUse policy was successfully created or updated.

2.6.1.5 TOU Acceptance Grace Periods

During the DGEO_TOU_ACCEPTANCE_GRACE_PERIOD, if the User, or CLG as appropriate, has not accepted the TOU, the User SHALL NOT be able to consume Content – specifically the User SHALL NOT be able to download Content, acquire DRM licenses, or stream Content, but SHALL be able to perform all other normally allowed User functions. At the end of this period, if the User, or CLG as appropriate, has not accepted the TOU, the Coordinator changes the User's status to "TOU blocked" (`urn:dece:type:status:blocked:tou`). See diagrams in [DCoord] Section 5.8.

If the TOU is updated, the User, or CLG as appropriate, must accept the updated version within the DGEO_TOU_UPDATE_GRACE_PERIOD or the Coordinator will place the User in a "TOU blocked" status (`urn:dece:type:status:blocked:tou`) until the User, or CLG as appropriate, accepts the new TOU.

Before changing a User's status at expiration of a TOU grace period (or directly after a TOU update if the grace period is 0), the Coordinator ensures that the status change will not interrupt User activity already in progress, such as purchasing (Rights Token placement), fulfillment, or streaming. In such instance the Coordinator will delay the status change until the activity finishes or the user begins a new activity.

2.6.1.6 Privacy Policy Updates

The Privacy Policy is incorporated by reference into the Terms of Use, and may be updated with notification but without requiring additional acceptance. If User acceptance of updates is required, the standard TOU update process will be activated (see above).

2.6.2 Age-related Policies

Note: DECE no longer records date of birth and therefore cannot enforce age-related policies.

A Node SHALL NOT provide the DateOfBirth element when creating a User.

2.6.3 (Blank)

(This section intentionally omitted).

2.6.4 Information Sharing

2.6.4.1 Disclosure of Rights Token Information

When a User grants access to their Account by a Node (by obtaining a Delegation Security Token, whether or not UserLinkConsent is set), the Node will have access to most information related to the

Rights Tokens in the Account (see [DCoord] Section 7.1.1). The Node SHALL only use this information for Ecosystem purposes unless it obtains consent from the user for marketing and non-Ecosystem activities, per the Compliance Rules.

Notice of disclosure of content information to a Node upon a User accessing their Account from the Node is provided in the Privacy Policy, as incorporated into the Terms of Use, to which each User must agree in order to participate in the Ecosystem.

A User may unlink the Account from a Node at any time, which will prevent any further disclosure of Rights Token information to that Node.

2.6.4.2 Disclosure of User Ability to See Content Usage and to Delete Users

A Node providing Account Management (including a Web Portal) SHALL display the following text, or substantially similar text, in any user interface for setting or changing the Access Level of a User: "Each user of this Library can see certain information about you and other Library users, including information such as the titles in the Library, which user obtained them, where they were obtained, and users' viewing activity. You have consented to this sharing among Library users. (See the UltraViolet Privacy Policy <hyperlink to UltraViolet Privacy Policy>.) Users have the ability to (i) delete you and other Library users, and (ii) add additional users with the same privileges."

Account Management Nodes SHOULD display similar text in any user interface for adding a User to an Account.

2.6.4.3 User Data Sharing

DataSharingConsent may be requested by a Node in conjunction with a Federation Security Token Request (see [DCoord] section 5).

2.6.5 Automatic Policy Creation by Coordinator

When issuing a Delegation Security Token for a User, the Coordinator automatically creates the following Account-level policy resources (if they don't already exist) for the requesting Node and for any Nodes named in the audience of the Delegation Security Token (see [DCoord] Section 5.7 and [DSecMech] Section 5.9.1), unless otherwise specified in an Appendix below.

- LockerViewAllConsent

- EnableUserDataUsageConsent

- EnableManageUserConsent

When ManageUserConsent is set for a Node or an Org for a User, the Coordinator automatically sets ManageAccountConsent for the Account (for the same Node or Org) if not already set. The ManageAccountConsent policy remains in place for the Node or Org until the last remaining ManageUserConsent policy for Users in the Account is deleted, at which point the Coordinator automatically deletes the ManageAccountConsent policy for the Node or Org.

2.6.6 Content Ratings and Parental Controls

When a rating (classification) is available for a territory in which a Content Provider licenses Content to one or more Retailers, Content Provider SHALL accurately mark Content with the appropriate rating for each applicable territory using the RatingSet metadata element for Basic Metadata in the Coordinator (see [DMeta] section 3.1) and using the Ratings metadata element for Container Metadata (see [DMeta] section 4.1.1), otherwise the Content Provider MAY mark the Content as Adult, Explicit (Parental Advisory), Unrated, or other rating within the special "Unrated" system, or MAY leave the content unrated.

The Content Provider SHALL only use ratings system and ratings values defined in DECE Common Metadata Ratings Specification [DCMetaCR].

A Retailer, LASP, or Access Portal SHOULD provide Parental Controls and Ratings Enforcement to enable users to restrict purchase and viewing of Content, using ratings information from the Coordinator or ratings information obtained elsewhere. Nodes are encouraged to take advantage of the DECE Common Metadata Ratings Specification [DCMetaCR].

> **Note:** The Coordinator formerly provided parental control settings and Ratings Enforcement for Locker view filtering, based on ratings information in Basic Metadata. The coordinator no longer implements Ratings Enforcement.

2.6.7 Consent Collection

Nodes desiring to provide an Account Management interface to users, or to present certain information such as username or email address to users as part of the Node's Ecosystem interface, SHALL set the ManageUserConsent (`urn:dece:type:policy:ManageUserConsent`) policy for the Node or Org. (See 2.6.5 for related information.)

Nodes MAY request this consent directly from the user or MAY rely on the Terms of Use and Privacy Policy as consent for this Ecosystem function.

> **Note:** Nodes were formerly required to record marketing consent at the Coordinator by setting the `urn:dece:type:policy:UserDataUsageConsent` Policy, and were required to check for the policy before performing any related activities. Nodes are still required to collect consent from the user, per the Compliance Rules, but should not set the `urn:dece:type:policy:UserDataUsageConsent` Policy.

Consent requests SHOULD NOT be pre-accepted when presented to the User.

For consents other than marketing, Nodes SHOULD present consent language retrieved from the Coordinator using the well-known URLs defined in section 5.5.3.2 of [DCoord].

2.6.8 Default Password Recovery Questions

> **Note:** Credential Recovery questions are no longer supported as of [DCoord] version 1.0.4. This section is retained here for historical purposes and potential re-introduction in the future.

The Web Portal allows Users to choose from the following secret questions and supply answers. Other Nodes SHALL use these questions when providing the ability for a User to set or change their secret questions and answers. See Section 2.1.1.2 of [DCoord].

Question ID	Question (US English)
1200	What is name of your favorite movie?
1650	What is the name of your favorite song?
140538	What was the name of your first school?
140539	What was the name of the street you grew up on?
140540	What is your favorite color?

Table 2: Default Password Recovery Questions

2.6.8.1 Coordinator Notifications to Users

In addition to notifications documented in [DCoord], the following notifications are provided to Users, at their primary e-mail address, by the Coordinator. Notifications to Child Users are subject to any provisions in the appropriate Appendix.

- E-mail confirmation. Request for the User to confirm their e-mail address at the Web Portal. If the User has not accepted TOU, they are also prompted to accept TOU at the Web Portal as part of the e-mail confirmation process. If the User has accepted TOU, the notification includes the following or similar text: "By activating your membership you are affirming that you have accepted the [UltraViolet Terms of Use and Privacy Policy]." [UltraViolet Terms of Use and Privacy Policy] is a link to DGEO_TOU.

- Notification of added or deleted User. All Users of an Account are notified whenever a User is added to or deleted from the Account. The notification about an added User includes the following, or similar, text: "Each member of this account can see certain information about other account members, including information such as the titles in the account, which member obtained them, where they were obtained, and members' viewing activity. (See the UltraViolet Privacy Policy.) Members with full or standard access may have the ability to delete other account members and add additional members with the same privileges."

Geographies Specification Version 2.3

Appendix A. Geography Policies for the United States

A.1 Jurisdiction

"United States" refers to the United States including all territories, commonwealths, and possessions of the United States, and United States military bases, embassies, and consulates abroad.

Policies in this appendix SHALL apply to Accounts in the United States as determined by the Country property of the Account and to Users in the United States as determined by the Country property of the User.

State- or territory-level information is not required in the United States.

A.2 Parameters for United States

Protocol Version	DGEO_PROTOCOL_VERSION = 1.1
Geography Identifier	DGEO_ID = "US" (country property of User)
TOU Acceptance Grace Period	DGEO_TOU_ACCEPTANCE_GRACE_PERIOD = 0 hours
TOU Update Grace Period	DGEO_TOU_UPDATE_GRACE_PERIOD = 0 days unless otherwise specified for a given update
DNS Name	DGEO_API_DNSNAME = uvvu.com
Portal Base URL	DGEO_PORTALBASE = www.myuv.com
Policy Text URL	DGEO_TEXTBASE = c.uvvu.com
Terms of Use URL	DGEO_TOU = [DGEO_ TEXTBASE]/Consent/Text/US/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1]
Privacy Policy URL	DGEO_PP = [DGEO_ TEXTBASE]/Consent/Text/US/urn:dece:type:policy:PrivacyPolicy/{format}/Current/ [1]
Cookie Policy URL	DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/US/urn:dece:type:policy:CookiePolicy/{format}/Current/ [1]
Default Web Portal Language	DGEO_PORTAL_LANGUAGE = English (en-US)
Default User Language(s)	DGEO_USER_LANGUAGES = en-US

[1] Documents are provided in two formats: text and html. See [DCoord] 5.5.2.3.

Table A.1 – Geography Policy Parameters for United States

A.3 Age-related Constraints for United States

None. (Age is no longer collected at the Coordinator.)

A.4 Consent

Consent (as described in [DCoord] 5.5.1) SHALL be collected at a Web Portal or at a Node.

A.4.1 Retailer Consent for Disclosure of Content Information

In connection with and prior to the completion of any transaction that involves the placement of one or more Rights Tokens in a User's Account, a Retailer SHALL inform such User that the completion of such transaction will result in the disclosure of information that identifies the specific UltraViolet Content (including, for example, the title of such UltraViolet Content and where such UltraViolet Content was obtained) corresponding to such Rights Token to (i) all other Users of such UltraViolet Account, and (ii) all UltraViolet Licensees accessed by any User of the UltraViolet Account in connection with the use thereof, and obtain such User's consent to such disclosure.

A.4.2 LASP Consent for Disclosure of Content Access

Prior to permitting a User to log into his or her UltraViolet Account through its service for the first time, a LASP SHALL obtain such User's consent to disclose information that identifies such User's activity with respect to all UltraViolet Content in such User's UltraViolet Account (including, for example, the titles of the UltraViolet Content streamed by such User and the time at which such UltraViolet Content was streamed) to (i) all other Users of such UltraViolet Account, and (ii) all UltraViolet Licensees accessed by any User of the UltraViolet Account in connection with the use thereof. In the case where the login occurs in connection with the creation of an UltraViolet User, such consent SHALL be obtained by the LASP during such User creation and, at the LASP's option, may be either obtained separately or included as part of a combined consent with other consents.

A.5 Connected Legal Guardian

A.6 (No longer applicable)

(This section left blank to maintain consistent appendix section numbering.)

A.7 Rating Systems and Identifiers for United States

See 2.6.6 for requirements and notes.

Appendix B.   Geography Policies for the United Kingdomand Crown Dependencies

B.1 Jurisdiction

 "United Kingdom" refers to all of the territories within the United Kingdom and Crown dependencies (the Channel Islands and the Isle of Man). All users from each of the four UK nations (England, Wales, Scotland, and Northern Ireland) and territories and dependencies SHALL be treated uniformly.

Policies in this appendix SHALL apply to Accounts in the United Kingdom as determined by the Country property of the Account and to Users in the United Kingdom as determined by the Country property of the User.

Nation- or territory-level information is not required in the United Kingdom.

B.2 Parameters for the United Kingdom

Protocol Version	DGEO_PROTOCOL_VERSION = 1.2
Geography Identifier	DGEO_ID = "GB" (country property of User)
TOU Acceptance Grace Period	DGEO_TOU_ACCEPTANCE_GRACE_PERIOD = 0 hours
TOU Update Grace Period	DGEO_TOU_UPDATE_GRACE_PERIOD = 0 days unless otherwise specified for a given update
DNS Name	DGEO_API_DNSNAME = uvvu.com
Portal Base URL	DGEO_PORTALBASE = www.myuv.com
Policy Text URL	DGEO_TEXTBASE = c.uvvu.com
Terms of Use URL	DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/GB/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1]
Privacy Policy URL	DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/GB/urn:dece: type:policy:PrivacyPolicy/{format}/Current/ [1]
Cookie Policy URL	DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/GB/urn:dece: type:policy:CookiePolicy/{format}/Current/ [1]
Default Web Portal Language	DGEO_PORTAL_LANGUAGE = English (en-US)
Default User Language(s)	DGEO_USER_LANGUAGES = en-GB

[1] Documents are provided in two formats: text and html. See [DCoord] 5.5.2.3.

Table B.1 – Geography Policy Parameters for the United Kingdom

B.3 Age-related Constraints for the United Kingdom

None. (Age is no longer collected at the Coordinator.)

B.4 Connected Legal Guardian

B.5 (No longer applicable)

(This section left blank to maintain consistent appendix section numbering.)

B.6 Cookies

For purposes of compliance with regulations relating to the use of "cookies", the Web Portal provides the following notice upon login, and the User is provided the option for a cookie to be placed which allows the User to re-enter the Web Portal for a specified period of time. The notice is the following or similar:

> Keep me signed in – You will stay signed in for up to <period of time> (or until you sign out). You are allowing us to store a small, temporary file (called a cookie) on your computing device. To learn more about the cookies we use and how to manage them, see the UltraViolet Privacy Policy. If you choose not to accept the cookie, you must sign in again when you return.

Consent is given when a user checks the "Keep me signed in" box, selects a "Yes, accept cookie(s)" button, or otherwise affirmatively accepts a notice about cookie placement. The Web Portal does not place any cookies on the User's device until consent is given.

The session tracking cookies used during a User session within the Web Portal do not need separate notice and consent where necessary for the operation of the session.

See DGEO_CP for current DECE cookie policy.

B.7 Rating Systems and Identifiers for the United Kingdom

See 2.6.6 for requirements and notes.

B.7.1 Content Rating

Note: The 12A rating applies only to films in a cinema. Home video mistakenly identified as 12A should have the 12 rating applied.

Appendix C.   Geography Policies for Canada

C.1 Jurisdiction

"Canada" refers to the provinces and territories of Canada.

Policies in this appendix SHALL apply to Accounts in Canada as determined by the Country property of the Account and to Users in Canada as determined by the Country property of the User.

Province- or territory-level information is not required in Canada.

C.2 Parameters for Canada

Protocol Version	DGEO_PROTOCOL_VERSION = 1.2
Geography Identifier	DGEO_ID = "CA" (country property of User)
TOU Acceptance Grace Period	DGEO_TOU_ACCEPTANCE_GRACE_PERIOD = 0 hours
TOU Update Grace Period	DGEO_TOU_UPDATE_GRACE_PERIOD = 0 days unless otherwise specified for a given update
DNS Name	DGEO_API_DNSNAME = uvvu.com
Portal Base URL	DGEO_PORTALBASE = www.myuv.com
Policy Text URL	DGEO_TEXTBASE = c.uvvu.com
Terms of Use URL	DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/CA/urn:dece:type:policy:termsofuse/{format}/Current/ [1]
Privacy Policy URL	DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/CA/urn:dece:type:policy:PrivacyPolicy/{format}/Current/ [1]
Cookie Policy URL	DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/CA/urn:dece:type:policy:CookiePolicy/{format}/Current/ [1]
Default Web Portal Language	DGEO_PORTAL_LANGUAGE = English (en-US)
Default User Language(s)	DGEO_USER_LANGUAGES = en-CA

[1] Documents are provided in two formats: text and html. See [DCoord] 5.5.2.3.

Table C.1 – Geography Policy Parameters for Canada

C.3 Age-related Constraints for Canada

Same as A.3 with the exception of A.4.1 (Retailer Consent for Disclosure of Content Information) and A.4.2 (LASP Consent for Disclosure of Content Access), which are not required in Canada.

C.4 Connected Legal Guardian

Same as A.5.

C.5 (Blank)

(This section left blank to maintain consistent appendix section numbering.)

C.6 Rating Systems and Identifiers for Canada

See 2.6.6 for requirements and notes.

C.7 Additional or Changed Coordinator Notifications for Canada

Same as A.6.

Appendix D.   Geography Policies for the Republic of Ireland

D.1 Jurisdiction

"Ireland" refers to the Republic of Ireland.

Policies in this appendix SHALL apply to Accounts in Ireland as determined by the Country property of the Account and to Users in Ireland as determined by the Country property of the User.

County-level information is not required in Ireland.

D.2 Parameters for Ireland

Protocol Version	DGEO_PROTOCOL_VERSION = 1.2
Geography Identifier	DGEO_ID = "IE" (country property of User)
TOU Acceptance Grace Period	DGEO_TOU_ACCEPTANCE_GRACE_PERIOD = 0 hours
TOU Update Grace Period	DGEO_TOU_UPDATE_GRACE_PERIOD = 0 days unless otherwise specified for a given update
DNS Name	DGEO_API_DNSNAME = uvvu.com
Portal Base URL	DGEO_PORTALBASE = www.myuv.com
Policy Text URL	DGEO_TEXTBASE = c.uvvu.com
Terms of Use URL	DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/IE/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1]
Privacy Policy URL	DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/IE/urn:dece:type:policy:PrivacyPolicy/{format}/Current/ [1]
Cookie Policy URL	DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/IE/urn:dece:type:policy:CookiePolicy/{format}/Current/ [1]
Default Web Portal Language	DGEO_PORTAL_LANGUAGE = English (en-US)
Default User Language(s)	DGEO_USER_LANGUAGES = en-IE

[1] Documents are provided in two formats: text and html. See [DCoord] 5.5.2.3.

Table D.1 – Geography Policy Parameters for Ireland

D.3 Age-related Constraints for Ireland

Same as B.3.

Same as B.4.

D.5 Cookies

Same as B.5.

D.6 Rating Systems and Identifiers for Ireland

See 2.6.6 for requirements and notes.

D.6.1 Content Rating

Note: The 12A and 15A ratings apply only to films in a cinema. Home video mistakenly identified as 12A or 15A should have the 12 or 15 rating applied.

Note: The 16 rating applies only to films in a cinema. The 15 or 18 rating should be used for home video releases of content that was classified 16 for cinema.

Appendix E.   Geography Policies for Australia

E.1 Jurisdiction

"Australia" refers to Australia and all territories of Australia.

Policies in this appendix SHALL apply to Accounts in Australia as determined by the Country property of the Account and to Users in Australia as determined by the Country property of the User.

State- or territory-level information is not required in Australia.

E.2 Parameters for Australia

Protocol Version	DGEO_PROTOCOL_VERSION = 1.2
Geography Identifier	DGEO_ID = "AU" (country property of User)
TOU Acceptance Grace Period	DGEO_TOU_ACCEPTANCE_GRACE_PERIOD = 0 hours
TOU Update Grace Period	DGEO_TOU_UPDATE_GRACE_PERIOD = 0 days unless otherwise specified for a given update
DNS Name	DGEO_API_DNSNAME = uvvu.com
Portal Base URL	DGEO_PORTALBASE = www.myuv.com
Policy Text URL	DGEO_TEXTBASE = c.uvvu.com
Terms of Use URL	DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/AU/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1]
Privacy Policy URL	DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/AU/urn:dece:type:policy:PrivacyPolicy/{format}/Current/ [1]
Cookie Policy URL	DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/AU/urn:dece:type:policy:CookiePolicy/{format}/Current/ [1]
Default Web Portal Language	DGEO_PORTAL_LANGUAGE = English (en-US)
Default User Language(s)	DGEO_USER_LANGUAGES = en-AU

[1] Documents are provided in two formats: text and html. See [DCoord] 5.5.2.3.

Appendix F.   Geography Policies for New Zealand

F.1 Jurisdiction

Policies in this appendix SHALL apply to Accounts in New Zealand as determined by the Country property of the Account and to Users in New Zealand as determined by the Country property of the User.

F.2 Parameters for New Zealand

Protocol Version	DGEO_PROTOCOL_VERSION = 1.2
Geography Identifier	DGEO_ID = "NZ" (country property of User)
TOU Acceptance Grace Period	DGEO_TOU_ACCEPTANCE_GRACE_PERIOD = 0 hours
TOU Update Grace Period	DGEO_TOU_UPDATE_GRACE_PERIOD = 0 days unless otherwise specified for a given update
DNS Name	DGEO_API_DNSNAME = uvvu.com
Portal Base URL	DGEO_PORTALBASE = www.myuv.com
Policy Text URL	DGEO_TEXTBASE = c.uvvu.com
Terms of Use URL	DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/NZ/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1]
Privacy Policy URL	DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/NZ/urn:dece:type:policy:PrivacyPolicy/{format}/Current/ [1]
Cookie Policy URL	DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/NZ/urn:dece:type:policy:CookiePolicy/{format}/Current/ [1]
Default Web Portal Language	DGEO_PORTAL_LANGUAGE = English (en-US)
Default User Language(s)	DGEO_USER_LANGUAGES = en-NZ

Appendix G. Geography Policies for France

G.1 Jurisdiction

"France" refers to the French Republic.

Policies in this appendix SHALL apply to Accounts in France as determined by the Country property of the Account and to Users in France as determined by the Country property of the User.

G.2 Parameters for France

Protocol Version	DGEO_PROTOCOL_VERSION = 1.2
Geography Identifier	DGEO_ID = "FR" (country property of Account or User)
TOU Acceptance Grace Period	DGEO_TOU_ACCEPTANCE_GRACE_PERIOD = 0 hours
TOU Update Grace Period	DGEO_TOU_UPDATE_GRACE_PERIOD = 0 days unless otherwise specified for a given update
DNS Name	DGEO_API_DNSNAME = uvvu.com
Portal Base URL	DGEO_PORTALBASE = www.myuv.com
Policy Text URL	DGEO_TEXTBASE = c.uvvu.com
Terms of Use URLs	English: DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/FR/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1] French: DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/FR-fr/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1]
Privacy Policy URLs	English: DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/FR/urn:dece:type:policy:PrivacyPolicy/{format}/Current/ [1] French: DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/FR-fr/urn:dece:type:policy:PrivacyPolicy/{format}/Current/ [1]
Cookie Policy URLs	DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/FR/urn:dece:type:policy:CookiePolicy/{format}/Current/ [1] DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/FR-fr/urn:dece:type:policy:CookiePolicy/{format}/Current/ [1]
Default Web Portal Language	DGEO_PORTAL_LANGUAGE = Standard French (fr)
Default User Language(s)	DGEO_USER_LANGUAGES = French (fr-FR)

[1] Documents are provided in two formats: text and html. See [DCoord] 5.5.2.3.

See 2.6.6 for requirements and notes.

Appendix H.   Geography Policies for Germany

H.1 Jurisdiction

"Germany" refers to Federal Republic of Germany.

Policies in this appendix SHALL apply to Accounts in Germany as determined by the Country property of the Account and to Users in Germany as determined by the Country property of the User.

H.2 Parameters for Germany

Protocol Version	DGEO_PROTOCOL_VERSION = 1.2
Geography Identifier	DGEO_ID = "DE" (country property of Account or User)
TOU Acceptance Grace Period	DGEO_TOU_ACCEPTANCE_GRACE_PERIOD = 0 hours
TOU Update Grace Period	DGEO_TOU_UPDATE_GRACE_PERIOD = 0 days unless otherwise specified for a given update
DNS Name	DGEO_API_DNSNAME = uvvu.com
Portal Base URL	DGEO_PORTALBASE = www.myuv.com
Policy Text URL	DGEO_TEXTBASE = c.uvvu.com
Terms of Use URLs	English: DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/DE/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1] German: DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/DE-de/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1]
Privacy Policy URLs	English: DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/DE/urn:dece:type:policy:PrivacyPolicy/{format}/Current/ [1] German: DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/DE-de/urn:dece: type:policy:PrivacyPolicy/{format}/Current/ [1]
Cookie Policy URLs	DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/DE/urn:dece:type:policy:CookiePolicy/{format}/Current/ [1] DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/DE-de/urn:dece:type:policy:CookiePolicy/{format}/Current/ [1]
Default Web Portal Language	DGEO_PORTAL_LANGUAGE = Standard German (de)
Default User Language(s)	DGEO_USER_LANGUAGES = de-DE

Appendix I.   Geography Policies for Austria

I.1   Jurisdiction

"Austria" refers to the Republic of Austria.

Policies in this appendix SHALL apply to Accounts in Austria as determined by the Country property of the Account and to Users in Austria as determined by the Country property of the User.

I.2   Parameters for Austria

Protocol Version	DGEO_PROTOCOL_VERSION = 1.2
Geography Identifier	DGEO_ID = "AT" (country property of Account or User)
TOU Acceptance Grace Period	DGEO_TOU_ACCEPTANCE_GRACE_PERIOD = 0 hours
TOU Update Grace Period	DGEO_TOU_UPDATE_GRACE_PERIOD = 0 days unless otherwise specified for a given update
DNS Name	DGEO_API_DNSNAME = uvvu.com
Portal Base URL	DGEO_PORTALBASE = www.myuv.com
Policy Text URL	DGEO_TEXTBASE = c.uvvu.com
Terms of Use URLs	English: DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/AT/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1] German: DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/AT-de/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1]
Privacy Policy URLs	English: DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/AT/urn:dece:type:policy:PrivacyPolicy/{format}/Current/ [1] German: DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/AT-de/urn:dece: type:policy:PrivacyPolicy/{format}/Current/ [1]
Cookie Policy URLs	English: DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/AT/urn:dece:type:policy:CookiePolicy/{format}/Current/ [1] German: DGEO_CP = [DGEO_TEXTBASE]/Consent/Text/AT-de/urn:dece: type:policy:CookiePolicy/{format}/Current/ [1]
Default Web Portal Language	DGEO_PORTAL_LANGUAGE = Standard German (de)
Default User Language(s)	DGEO_USER_LANGUAGES = de-AT

[1] Documents are provided in two formats: text and html. See [DCoord] 5.5.2.3.

Note that Content Providers typically use Germany FSK ratings.

Geographies Specification Version 2.3

Appendix J.   Geography Policies for Switzerland

J.1   Jurisdiction

"Switzerland" refers to the Swiss Confederation.

Policies in this appendix SHALL apply to Accounts in Switzerland as determined by the Country property of the Account and to Users in Switzerland as determined by the Country property of the User.

J.2   Parameters for Switzerland

Protocol Version	DGEO_PROTOCOL_VERSION = 1.2
Geography Identifier	DGEO_ID = "CH" (country property of Account or User)
TOU Acceptance Grace Period	DGEO_TOU_ACCEPTANCE_GRACE_PERIOD = 0 hours
TOU Update Grace Period	DGEO_TOU_UPDATE_GRACE_PERIOD = 0 days unless otherwise specified for a given update
DNS Name	DGEO_API_DNSNAME = uvvu.com
Portal Base URL	DGEO_PORTALBASE = www.myuv.com
Policy Text URL	DGEO_TEXTBASE = c.uvvu.com
Terms of Use URLs	English: DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/CH/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1] German: DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/CH-de/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1] French: DGEO_TOU = [DGEO_TEXTBASE]/Consent/Text/CH-fr/urn:dece:type:policy:TermsOfUse/{format}/Current/ [1]
Privacy Policy URLs	English: DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/CH/urn:dece:type:policy:PrivacyPolicy/{format}/Current/ [1] German: DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/CH-de/urn:dece: type:policy:PrivacyPolicy/{format}/Current/ [1] French: DGEO_PP = [DGEO_TEXTBASE]/Consent/Text/CH-fr/urn:dece: type:policy:PrivacyPolicy/{format}/Current/ [1]
